

## Flash Dried Poultry Protein®

Griffin Industries' **Flash Dried Poultry Protein®** is an economical alternative protein source for fish meal in weaning pigs and aquaculture diets. Flash Dried Poultry Protein is produced through a unique rendering process that significantly improves high density diets with enhanced palatability and digestibility, resulting in increased growth and performance.

### Swine Starter Benefits

- Improved nutrient availability
- Improved feed conversions
- Improved growth performance
- Reduced feed cost

### Aquaculture Benefits

- Increased growth and conversion
- Improved nutrient availability
- Reduced effluent discharge
- Increased palatability
